A U D I E N C E :

The intended audience of this program includes radiologists, nuclear physicians, radiation oncologists, nuclear and radiologic technologists, and nuclear scientists.

C O N T E N T :

This program will update techniques and applications in PET/CT and SPECT/CT in the diagnosis and management of disease and explore indications and controversies for the use of Radioimmunotherapy for lymphoma and radioiodine thyroid therapy. The New Frontiers Session will provide new developments in PET radiopharmacy and in the emerging role of PET in the evaluation of prostate cancer.

Program objectives are available on the LARS website at www.larad.org.

C E R T I F I C A T I O N :

This activity has been planned and implemented in accordance with the Institute for Medical Quality and the California Medical Association's CME Accreditation Standards (IMQ/CMA) through the Joint Sponsorship of The Los Angeles Radiological Society (LARS) and The Pacific Southwest Chapter, SNM. LARS is accredited by the IMQ/CMA to provide continuing medical education for physicians. LARS takes responsibility for the content, quality and scientific integrity of this CME activity.

LARS designates this educational activity for a maximum of 7.75 AMA PRA Category 1 Credits™. Physicians should only claim credit commensurate with the extent of their participation in the activity. This credit may also be applied to the CMA Certification in Continuing Medical Education .

VOICE Credit has been applied for from the SNMSTS. **SCOPE Credit** is available. Watch the LARS website for specifics.
